TECHCONNECT™

TECHCONNECT™ is a technical support system developed by **Advanced Wiring Solutions** to avoid problems and delays often associated with designing, installing and maintaining low voltage systems and solutions.

Advanced Wiring Solutions gives you a seamless process that provides you with a peace of mind that the job will be done right, on-time and within budget.

Advanced Wiring Solutions doesn't believe in taking short cuts that compromise quality and lead to customer frustration. We care that the customer gets the best products and services, and we guarantee our work. Plus the customer receives support before, during and after the installation. You can depend on **Advanced Wiring Solutions** for consistent quality every time.

Count On Us!

Advanced Wiring Solutions provides innovative system and cabling solutions tailored to fit your communication needs by offering a consistent quality of service, rapid response time, quality workmanship utilizing the latest technology in the industry, and implementing the highest industry standards. AWS remains committed to customer relationships from the beginning of the project and provides our 100% Service Guarantee to back up our commitment.

Michael Sanfratello started **Advanced Wiring Solutions** in 1998 with one major objective.

To become a premier low voltage contractor in the Chicago land area while committing to high levels of customer service and strict adherence to industry standards.

To achieve 100% quality, **Advanced Wiring Solutions** employs highly qualified low voltage technicians that are union trained and safety certified.

Our clients deserve the best. You can count on **Advanced Wiring Solutions** to exceed your expectations.

TESTIMONIALS

“Each project that Advanced Wiring Solutions (AWS) has worked for us has followed all of our standards. They are very responsive, clean, performed well and all the work was done properly the first time around.”

Hashem Helmi
Network Services College of DuPage

“Advanced Wiring has been very reliable, consistent, and responsive. They have always completed the job properly from the initial quote request to the close out documents.”

Robert Fimbiante
Owner
Linear Electric

“Advanced Wiring Solutions was very professional, timely, accommodating, they provided us with a quality job. We were impressed with the work and the project manager. The pre-job preparation was excellent and guided us thru the entire process.”

Susan Ptak
Phoenix Logistics

“I have high expectations, Advanced Wiring Solutions and their project managers delivered everything that they promised with a prompt response, quality workmanship and timely performances.”

Dan Weiler
Plymouth Place
Director of Operations and Facilities

“We have been working with AWS for years; they take direction easily, clearly, and perform the task without mistakes. They adhere to high standards of safety, flexibility and response to our spontaneous needs with their quality workmanship and efficient project managers. I am very comfortable and get nervous when I use anybody else.”

Tom Melms, CTS
AVI Systems
Regional Vice President
